

Robin's memoir is a compilation of poetry, reflections, and essays. The book is written in a style that shows the many challenges a Lesbian Christian faces in living an open life, while also seeking to live a life of faith. Robin hopes this book will convey wisdom to the lesbian reader to help her identify the goodness in her own life. Another prayer is that the book will be shared with parents and friends in order that issues of faith can be seen as a unifying theme in the life of each person regardless of sexual orientation or gender identity.
